Lander County Commissioners
315 S. Humboldt Street
Battle Mountain, NV 89820

Dear Honorable Commissioners,

Seat D is vacant on the Kingston Town Board due to June Manhire's resignation that was accepted at the August Kingston Town Board meeting. The board has received a letter of interest to fill the board vacancy from Tammy Elkins. This has been the only letter received. The Kingston Town Board has approved the recommendation for Tammy Elkins to be appointed to Seat D at the regular meeting on September 17, 2014. We are requesting that she be appointed at the next Lander County Commissioners meeting that will be available. An agenda request and Tammy Elkins' letter is attached to this letter. Thank you for your assistance in this matter.

Sincerely,

Shannon D. Thiss
Kingston Deputy Clerk

Shannon Thiss Deputy Clerk

HC 65 Box 130

Austin, Nv 89310

To Whom It May Concern,

My name is Tamera Elkins and I would like to be considered as a candidate to fill the vacancy on the Kingston Town Board.

I am a resident of Kingston Nevada and have been for almost 27 years. I have previously served on the Kingston Town Board for four years.

I think I would be an asset to the Town and to the Kingston community with knowledge of the town needs and issues.

Sincerely,

Tamera Elkins

Public Education — a sound investment in AMERICA

Jim D. Squibb
Superintendent

DATE: September 25, 2014

ATTN: Keith Westengard

FROM: Jim Squibb
Superintendent
Lander County School District

Let this letter serve as official notification that at a regularly scheduled meeting of the Lander County School District Board of Trustees on July 16, 2014, approval was granted for the transfer of land adjacent to Battle Mountain High School from Lander County School District to Lander County for the site of a proposed Recreation Center.

As part of the motion that was voted on and approved, the Board of Trustees asked for these considerations in exchange for the land:

(1) A use agreement between the District and the County allowing for student use (physical education classes and before- and after-school programs) of the Recreation Center and discounted district employee use fees;
(2) Retention by the District of enough land within the parcel to allow for a reasonable route for buses and school personnel to access school property behind the High School and for possible District expansion near the Maintenance building;
(3) Transfer of softball and baseball fields adjacent to existing football field to the District;
(4) Consideration by the County of transferal of land for future District expansion; and,
(5) County to assume the cost of splitting the parcel and providing a full title report to the District.

The Lander County School District does not discriminate on the basis of race, color, national origin, age, religion, political affiliation, disabilities, or sex in its educational programs or employment. No person shall be denied employment solely because of any impairment, which is unrelated to the ability to engage in activities involved in the position, or program for which application is made.

Jim Olson

From: Jan Morrison <jmorrison@landercountynv.org>
Sent: Tuesday, July 29, 2014 8:55 AM
To: Lura Duvall; Jim Olson, Executive Director; Anna Penola
Attachments: Rec Cntr Swap.pdf

Lura,
Here is a brief outline of the property to be traded between the county and school district:

On July 16 the LC School Board voted, subject to final documents and approval by all parties, to trade parcel 002-190-10 (3.75 acres adjacent to the high school) to the County in exchange for the southern portion of parcel 002-190-002 (the portion containing the ball fields). The motion stated that the County would absorb the cost of the parcel split and transfer, also that a policy of title insurance on the ball fields parcel be given to the school district.

Attached is the Assessor's map and GIS print of the two properties. There are two parent parcels, and each will split into two more parcels:

02 190 01: Parcel A will be retained by the School District. Parcel B will be given to the County.
02 190 02: Parcel C will be retained by the County. Parcel D will be given to the School District.

Here is what the process may be, but not necessarily. So give me lots of feedback.

1. Based up the attached, Bob Morley will provide cost, time frame for his work, etc. There are no detailed drawings yet, and won't be until he defines the new 'ball parks' parcel.

2. Once Morley returns his cost, time frame, etc; then the package goes to the Rec committee, Lander County Commissioners, and the Lander County School Board for the commitment to go forward.

3. Bob Morley effects the splits (Boundary Line Adjustments?). It will need to go through the Commissioners for final approval, as he can't approve his own work.

4. Our D. A. prepares deeds and documents for the swap.

5. Once the split is approved (maybe before recorded?), the architects can re-work their site plan.

6. At the same time, the project goes out for CMAR bid.

7. Then all the rest happens.....

10. Meets with and responds to concerns of bargaining units regarding the negotiated agreement.
11. Represents the county in personnel matters.
12. Directs and coordinates all elements of employee discipline process, including dismissals.
13. Coordinates and directs any reductions in force that may be necessary due to financial constraints.
14. Conducts investigations of complaints in a timely manner pursuant to county policy.
15. Coordinates the development of job descriptions and performance evaluation systems.

16. Makes recommendations regarding necessary changes in personnel management and administration.
17. Directs and monitors the processing of leave requests in accordance with law, regulation, and county policy.
18. Conducts employment interviews for teaching personnel when required, exit interviews for retiring personnel, and other conferences related to the personnel function.
19. Counsels and advises applicants and probationary/permanent employees.
20. Attends annual and/or semi-annual training related to Human Resources.
21. Maintains current on federal and state laws relating to Human Resources.
22. Maintains current on county policy.

QUALIFICATIONS FOR EMPLOYMENT:

Knowledge, Skills, and Abilities: (KSAs are the attributes required to perform a job; generally demonstrated through qualifying experience, education, or training.)

Knowledge of:

- Modern and current practices related to the recruitment, selection, assignment, and in-service training of personnel;
- All aspects of human resources operations in a local government setting and the dynamics of human resources management;
- Current and traditional methods of collective bargaining;
- The evaluation and discipline process;
- Principles of supervision and management;
- County policy and procedure development;
- Training methods and in-service training development;

Skill to:

- Operate standard office equipment including computers and related software applications;
- Interpret and explain changes in current human resources laws relating to county personnel;
- Read, interpret, apply, and explain rules, regulations, policies, and procedures; and
- Effectively communicate county policies and procedures to new and existing employees.

Ability to:

- Handle highly sensitive personnel matters in a timely and professional manner;
- Problem-solve, plan, supervise, organize, and schedule;
- Conduct investigations as necessary;
- Manage and direct the county's human resources program;

- Negotiate with a collective bargaining unit; and
- Use high level interpersonal skills in order to maintain effective working relationships.

Required Certifications and Licenses: PHR (Professional in Human Resources) with-in 1 year of hire. SPHR (Senior Professional in Human Resources) desired.

Possession of a valid Nevada driver's license.

Experience and Training:

Any combination of training, education, and experience that would provide the required knowledge, skills, and abilities. A typical way to gain the required knowledge, skills, and abilities is:

Graduation from an accredited college or university with a bachelor's degree and/or a minimum of five years of verified professional experience in human resources, two years of which were in a management capacity. A master's degree in education or public administration is desired but not required.

Physical and Mental/Intellectual Requirements:

The physical and mental/intellectual requirements described here are representative of those that must be met by an employee to successfully perform the essential functions of the job.

Strength, dexterity, and coordination to use keyboard and video display terminal for prolonged periods. Strength and stamina to bend, stoop, sit, and stand for long periods of time. Dexterity and coordination to handle files and single pieces of paper; occasional lifting of files, stacks of paper or reports, references, and other materials. Some reaching for items above and below desk level. Some reaching, bending, squatting, and stooping to access files and records is necessary. The manual dexterity and cognitive ability to operate a personal computer using word processing and databases. The ability to interact professionally, communicate effectively, and exchange information accurately with all internal and external customers.

In compliance with applicable disability laws, reasonable accommodations may be provided for qualified individuals with a disability who require and request such accommodations. Applicants and incumbents are encouraged to discuss potential accommodations with the employer.

Working Conditions:

Work is performed under the following conditions:

Position functions indoors in an office type environment where most work is performed at a desk. Position may occasionally be required to travel by car to pick up or deliver material. Environment is generally clean with limited exposure to conditions such as dust, fumes, noise, or odors. Frequent interruptions to planned work activities occur.

Employee's Acknowledgment: I acknowledge that I have read the above job description and have received a copy for my records.

Professional in Human Resources

From Wikipedia, the free encyclopedia

Professional in Human Resources (PHR) is an industry certification for people working in the human resource management profession. The certification, awarded by the Human Resource Certification Institute (HRCI), signifies that individuals possess the theoretical knowledge and practical experience in human resource management necessary to pass a rigorous examination demonstrating a mastery of the body of knowledge in the field. The **Senior Professional in Human Resources** (SPHR) is the senior-most human resources certification for those who have also demonstrated a strategic mastery of the HR body of knowledge.[1]

Contents

- 1 Eligibility
- 2 Exam
- 3 Preparation
- 4 Recertification
- 5 See also
- 6 References

Eligibility

To be eligible to sit for the PHR exam, you must have:[2]

- A minimum of 1 year of experience in an exempt-level (professional) HR position with a Master's degree or higher, OR
- A minimum of 2 years of experience in an exempt-level (professional) HR position with a Bachelor's degree, OR
- A minimum of 4 years of experience in an exempt-level (professional) HR position with a high school diploma

In addition the ideal candidate for this certification is an individual who:

- Focuses on program implementation.
- Has tactical/logistical orientation.
- Has accountability to another HR professional within the organization.

- Has two to four years of exempt-level generalist HR work experience, but because of career length may lack the breadth and depth of a more senior-level generalist.
- Focuses his or her impact on the organization within the HR department rather than organization wide.
- Commands respect through the credibility of knowledge and the use of policies and guidelines to make decisions.

Exam

The rigorous exams are administered at computer-based testing centers throughout the world. The exams are offered two times per year: December 1 through January 31, and May 1 through June 30.

The exam is knowledge- and experience-based. Candidates are given three hours to answer 175 multiple-choice questions.[3] The test specifications are based on the PHR/SPHR Body of Knowledge, which is composed of six functional areas.[4]

Preparation

The HR Certification Institute does not endorse any one way to prepare or study for the PHR exam. There are several organizations that offer study materials and prep courses to assist individuals in their study efforts.

Organizations that offers certification preparation are the Society for Human Resources Management,[5] many universities such as Utah State University,[6] and organizations of the like.

Recertification

Recertification is the cornerstone of any reputable certification program. Certifications differ from certificate programs because certifications, by definition, include a work experience component. Certificate programs, on the other hand, award certificates once a course of study has been completed and do not require previous work experience or recertification. To maintain the PHR credential, those passing the PHR exam must recertify every three years (60 hours of credit) through continuing education activities. Recertifying a certificant's designation demonstrates a commitment to stay abreast of changes taking place in the human resource management field.

AGENDA ITEM NO. 13

THE REQUESTED ACTION OF THE LANDER COUNTY COMMISSION IS:
Discussion for possible action regarding approval/disapproval for Bill Draft Request For the 2015 Legislative Session, #465, Grants Authority for a Board of Commissioners to adopt ordinances regulating specific health and safety issues , and other matters properly related thereto.

Public comment.

Background:

Recommended Action:

LOCAL GOVERNMENT
BILL DRAFT REQUEST
FOR THE
2015 LEGISLATIVE SESSION

*** Person or Entity Authorized to Submit BDR:**
Nevada Association of Counties (NACO)

*** Name of Person Submitting Request:**
Jeff Fontaine, Executive Director, Nevada Association of Counties (NACO)

*** 1. Intent of Proposed Bill or Resolution** (Describe the problem to be solved, intended effect, and/or the goal(s) of the proposed bill or resolution – may be attached as separate document):

GOAL: **Delegating additional authority to counties for certain day to day functions of county government specific to health and safety issues.**

As a Dillon's Rule State, Nevada's local governments only have authority over powers specifically delegated to them by state law. In the instance of health and safety issues this hinders counties' ability to immediately address issues including water and sanitation, animal nuisances, and certain businesses, in their codes. Instead they must come to the Legislature to ask for enabling legislation. This has created situations where a local government has to wait up to two years to have the authority to address what may be a pressing local health and safety issue. NACO is requesting that a very limited form of local authority, or "home rule" be granted to counties for the area of Nevada law covered by Chapter 244.355-69 (NRS) only.

Legislation drafted for the 2013 Nevada Legislative Session (SB 2) articulates how general functional home rule might be granted, including how this power is limited and does not include: prescribing the "law governing civil actions between individuals"; imposing duties on other jurisdictions; imposing taxes; preempting other state authority; or conducing elections. The proposal contained herein could be modeled after the language in SB 2, and applied only to the limited topic area of health and safety, as it is addressed in Chapter 244.355-69.

* Required fields.

2. Any additional information that may be helpful in drafting the bill (e.g., any relevant legislative measures, cases or federal or state laws – may be attached as separate document):

Please see SB 2 from the 2013 Nevada Legislative Session.

* Required fields.

3. NRS Title(s), Chapter(s) and Section(s) affected and/or Nevada Constitutional provisions affected:

NRS 244

4. Effective Date:

- ☐ Default (October 1, 2015)
- X July 1, 2015
- ☐ January 1, 2016
- ☐ Upon Passage and Approval
- ☐ Other

*** 5. Person(s) to be consulted if more information is needed:**

Name: Jeff Fontaine

Phone Number(s): (775) 883-7863

E-mail Address: jfontaine@nvnaco.org

6. Description of any known cost to the State or a local government that would result from carrying out the changes in the bill if enacted:

No known additional cost to the State or local government. There is a potential reduction in cost to the State as a result of having to process fewer bills requesting changes to chapter NRS Chapter 244. In 2011 and 2013 Sessions there were six bills that were processed and passed relating to this Chapter as well as others that were proposed.

7. If this bill draft request is required to be approved in a public meeting, please list the entity that approved the request and the date on which the request was approved:

REQUIRED PREFILING:

Non-Legislators: A bill draft requested by any entity other than a legislator or a legislative committee is required to be prefiled on or before December 20 preceding the regular legislative session. By statute, a measure that is not prefiled on or before that date is deemed to be withdrawn. There is no authority to waive this requirement.

Please submit completed Bill Draft Request form by mail to: Brenda Erdoes, Legislative Counsel, Legislative Building, 401 South Carson Street, Carson City, Nevada 89701, by e-mail at erdoes@lcb.state.nv.us or by fax at (775) 684-6761.

* Required fields.

AGENDA ITEM NO. 14

THE REQUESTED ACTION OF THE LANDER COUNTY COMMISSION IS:
Discussion for possible action regarding approval/disapproval for Bill Draft Request for the 2015 Legislative Session, #466, Revises provisions governing the prepayment of taxes on the net proceeds of minerals, and other matters properly related thereto.

Public comment.

Background:

Recommended Action:

LOCAL GOVERNMENT
BILL DRAFT REQUEST
FOR THE
2015 LEGISLATIVE SESSION

*** Person or Entity Authorized to Submit BDR:**
Nevada Association of Counties (NACO)

*** Name of Person Submitting Request:**
Jeff Fontaine, Executive Director, Nevada Association of Counties (NACO)

*** 1. Intent of Proposed Bill or Resolution** (Describe the problem to be solved, intended effect, and/or the goal(s) of the proposed bill or resolution – may be attached as separate document):

GOAL: **To adjust the timing of payments from net proceeds of minerals to counties so *that payments are based on actual versus estimated amounts, and to eliminate* prepayments.**

In the 2008 Special Session, in order to address shortfalls in State revenue, SB 2 was passed, which adjusted the timing of net proceeds of minerals payments to both the counties and the State. The changes that were made in SB 2 created "prepayments" of net proceeds, and also created a new timing by which net proceeds were estimated and upon which payments were based and paid. Under the current system, net proceeds tax payers pay estimated taxes throughout the year for which they are assessed, and then are required to report actual taxes due by April 20th. Tentative county budgets have to be prepared by April 15th and final budgets adopted by June1st. In counties with mining-heavy economies, net proceeds of minerals make up a significant portion of county revenues. In the event that either estimates are too high or prepayments are larger than the actual amount of the tax due, counties may find themselves in the position of owing a refund to the tax payer, and/or having to make adjustments to their budgets within a very short window of time. In 2014 the estimated net proceeds taxes due to counties ended up being much higher than the actual payments.

To remedy this situation, NACO proposes that the changes made to NRS 362.115 in 2008 be reversed, *as they apply to counties only, not to the State of Nevada.*

This change in the timing of the current payment of net proceeds to counties should also include a phase in period of two years.

* Required fields.

HH

2. **Any additional information that may be helpful in drafting the bill** (e.g., any relevant legislative measures, cases or federal or state laws – may be attached as separate document):

Please see the attached information sheets provided by the NV Department of Taxation to the NACO Board in May of 2014.

* Required fields.

3. NRS Title(s), Chapter(s) and Section(s) affected and/or Nevada Constitutional provisions affected:

NRS 362.115 and corresponding sections of Nevada Revised Statutes including additional sections of Chapter 362

4. Effective Date:

☐ Default (October 1, 2015)
July 1, 2015
☐ January 1, 2016
☐ Upon Passage and Approval
X Other – *we would propose working with the counties and Department of Taxation to determine how to appropriately time the implementation of this change.*

*** 5. Person(s) to be consulted if more information is needed:**

Name: Jeff Fontaine

Phone Number(s): (775) 883-7863

E-mail Address: jfontaine@nvnaco.org

6. Description of any known cost to the State or a local government that would result from carrying out the changes in the bill if enacted:

This change will have a known cost to counties. By adjusting the timing of payments of net proceeds to counties the estimated amounts currently being paid to counties during the tax year assessed and within which this change shall take place - revenue amounts upon which counties have based their budgets - would not be received until the following year. There will be a year (or two if phased) of catch up when the counties go without the net proceeds payments while the timing of those payments is adjusted.

7. If this bill draft request is required to be approved in a public meeting, please list the entity that approved the request and the date on which the request was approved:

REQUIRED PREFILING:

Non-Legislators: A bill draft requested by any entity other than a legislator or a legislative committee is required to be prefiled on or before December 20 preceding the regular

* Required fields.

legislative session. By statute, a measure that is not prefiled on or before that date is deemed to be withdrawn. There is no authority to waive this requirement.

Please submit completed Bill Draft Request form by mail to: Brenda Erdoes, Legislative Counsel, Legislative Building, 401 South Carson Street, Carson City, Nevada 89701, by e-mail at erdoes@lcb.state.nv.us or by fax at (775) 684-6761.

Hi Sadie

At the end of the agenda we have the 5 Bill Draft Requests

That NACO is submitting.

Jeff Fontaine (NACO Ex.Dir) will be joining us on the phone for that.

His number is 775 883-8863.

Thank you

Patsy

AGENDA ITEM NO. 15

THE REQUESTED ACTION OF THE LANDER COUNTY COMMISSION IS:
Discussion for possible action regarding approval/disapproval for Bill Draft Request For The 2015 Legislative Session, #467, Revises provisions governing payment of cost associated with legal representation of indigent criminal defendants charged with capital crimes, and other matters properly related thereto.

Public comment.

Background:

Recommended Action:

LOCAL GOVERNMENT
BILL DRAFT REQUEST
FOR THE
2015 LEGISLATIVE SESSION

*** Person or Entity Authorized to Submit BDR:**
Nevada Association of Counties (NACO)

*** Name of Person Submitting Request:**
Jeff Fontaine, Executive Director, Nevada Association of Counties (NACO)

*** 1. Intent of Proposed Bill or Resolution** (Describe the problem to be solved, intended effect, and/or the goal(s) of the proposed bill or resolution – may be attached as separate document):

GOAL: **To rebalance the costs for representing indigent defendants charged with *capital crimes in* Nevada.**

The Constitutional obligation to provide effective legal representation to indigent criminal defendants is set forth in the Sixth Amendment and that right has been made applicable to the states by the Fourteenth Amendment. The State of Nevada has required counties to pay the majority of costs for indigent defense, which is a financial burden on Nevada's counties and could unnecessarily result in less effective legal representation for indigent people in some counties.

In order to rebalance costs and ensure adequate representation of indigent defendants, NACO proposes that the State Public Defender (SPD) represent, at no additional cost to those counties that utilize the services of the SPD, indigent defendants charged with capital crimes, and to reimburse those counties that have their own public defender or contract counsel for all expenses incurred for the legal representation of indigent defendants charged with capital crimes.

2. Any additional information that may be helpful in drafting the bill (e.g., any relevant legislative measures, cases or federal or state laws – may be attached as separate document):

* Required fields.

Please see the attached report by the Nevada Supreme Court's Rural Issues Subcommittee:, "Rural Subcommittee Report on the Status of Indigent Defense in the 15 Rural Counties and Recommendations to Improve Service to Indigent Defendants."

* Required fields.

3. NRS Title(s), Chapter(s) and Section(s) affected and/or Nevada Constitutional provisions affected:

NRS 260; NRS 7.115-175

4. Effective Date:

☐ Default (October 1, 2015)
July 1, 2015
X October 1, 2016
☐ Upon Passage and Approval
☐ Other

*** 5. Person(s) to be consulted if more information is needed:**

Name: Jeff Fontaine

Phone Number(s): (775) 883-7863

E-mail Address: jfontaine@nvnaco.org

6. Description of any known cost to the State or a local government that would result from carrying out the changes in the bill if enacted:

This proposed change would result in additional costs to the State of Nevada. Those costs would include the costs to defend all indigent persons charged with capital crimes in the State of Nevada, including additional costs to the State Public Defender's Office, as well as reimbursements to Clark and Washoe Counties to defend indigent persons charged in capital cases.

7. If this bill draft request is required to be approved in a public meeting, please list the entity that approved the request and the date on which the request was approved:

REQUIRED PREFILING:

Non-Legislators: A bill draft requested by any entity other than a legislator or a legislative committee is required to be prefiled on or before December 20 preceding the regular legislative session. By statute, a measure that is not prefiled on or before that date is deemed to be withdrawn. There is no authority to waive this requirement.

* Required fields.

Please submit completed Bill Draft Request form by mail to: Brenda Erdoes, Legislative Counsel, Legislative Building, 401 South Carson Street, Carson City, Nevada 89701, by e-mail at erdoes@lcb.state.nv.us or by fax at (775) 684-6761.

* Required fields.

AGENDA ITEM NO. 16

THE REQUESTED ACTION OF THE LANDER COUNTY COMMISSION IS:
Discussion for possible action regarding approval/disapproval for Bill Draft Request For The 2015 Legislative Session, #468, Authorizes Board of County Commissioners to reduce the longevity pay of elected county officers, and other matters properly related thereto.

Public comment.

Background:

Recommended Action:

LOCAL GOVERNMENT
BILL DRAFT REQUEST
FOR THE
2015 LEGISLATIVE SESSION

*** Person or Entity Authorized to Submit BDR:**
Nevada Association of Counties (NACO)

*** Name of Person Submitting Request:**
Jeff Fontaine, Executive Director, Nevada Association of Counties (NACO)

*** 1. Intent of Proposed Bill or Resolution** (Describe the problem to be solved, intended effect, and/or the goal(s) of the proposed bill or resolution – may be attached as separate document):

GOAL: **To delegate to county commissions the authority to grant longevity pay for county elected officials.**

Over the past five years, county governments have experienced significant reductions in revenues available to fund the services that they are responsible for providing to their citizens. As a result they have cut budgets in many different ways, eliminating both staff positions and services. Currently, counties do not have the authority to reduce the longevity pay portion of the salaries that county elected officials themselves receive. In order to address this situation, counties would like to request the ability to decide to forgo the annual "longevity pay" increase automatically granted to them pursuant to NRS 245.044.

NACO proposes that NRS 245.044 be changed to read:

[EXPLANATION – Matter in ***bolded italics*** is new; matter between brackets ~~[omitted material]~~ is material to be omitted]

NRS 245.044 Payment for longevity for elected county officers.

1. On and after July 1, 1973, if an elected county officer has served in his or her office for more than 4 years, the officer is entitled to an additional salary of 2 percent of his or her base salary for the appropriate fiscal year as provided in subsection 2 of NRS 245.043 or his or her annual salary set pursuant to subsection 3 of NRS 245.043, as applicable, for each full calendar year the officer has served in his or her office.

2. The additional salary provided in this section for an eligible county officer:

(a) Must be computed on July 1 of each year by multiplying 2 percent of the base salary

* Required fields.

for the appropriate fiscal year as provided in subsection 2 of NRS 245.043 or the annual salary set pursuant to subsection 3 of NRS 245.043, as applicable, by the number of full calendar years the elected county officer has served in his or her office; and

(b) Must not exceed 20 percent of the base salary for the appropriate fiscal year as provided in subsection 2 of NRS 245.043 or the annual salary set pursuant to subsection 3 of NRS 245.043, as applicable.

3. A board of county commissioners may decide to forgo the additional salary provided in this section if:

(a) The decision is approved by a vote of two-thirds majority of the board of county commissioners;

(b) The amount of additional salary forgone represents only that increment that would have been automatically granted in the current fiscal year;

(c) The decision is tied to budgetary constraints;

(d) The decision applies equally to all members of the board of county commissioners and all other elected county officers in that county.

4.~~[3]~~ Service on the Board of Supervisors of Carson City for the initial term which began on July 1, 1969, and ended on the first Monday of January, 1973, shall be deemed to constitute 4 full calendar years of service for the purposes of this section.

(Added to NRS by 1973, 1780; A 1975, 958; 1983, 1649; 1987, 115; 1995, 2520; 2007, 2411)

2. Any additional information that may be helpful in drafting the bill (e.g., any relevant legislative measures, cases or federal or state laws – may be attached as separate document):

* Required fields.

3. NRS Title(s), Chapter(s) and Section(s) affected and/or Nevada Constitutional provisions affected:

NRS 245.044

4. Effective Date:

- ☐ Default (October 1, 2015)
- X July 1, 2015
- ☐ January 1, 2016
- ☐ Upon Passage and Approval

LOCAL GOVERNMENT
BILL DRAFT REQUEST
FOR THE
2015 LEGISLATIVE SESSION

*** Person or Entity Authorized to Submit BDR:**
Nevada Association of Counties (NACO)

*** Name of Person Submitting Request:**
Jeff Fontaine, Executive Director, Nevada Association of Counties (NACO)

*** 1. Intent of Proposed Bill or Resolution** (Describe the problem to be solved, intended effect, and/or the goal(s) of the proposed bill or resolution – may be attached as separate document):

GOAL: **To rebalance the cost allocation between the State and counties for pre-sentence investigation reports prepared by the Department of Public Safety.**

During the 2011 Legislative Session, Chapter 171 of NRS was changed to create an assessment to Nevada's counties for 70% of the cost of producing presentence investigation reports (PSIs) by the Department of Public Safety (NRS 171.161). As a result of that legislation, currently, each county is assessed an amount based on the number of PSI's prepared in their jurisdiction. Prior to 2011 the cost to produce PSI reports was paid entirely by the State. Presentence investigation reports are used by District Court Judges; however, Nevada's counties believe that the realistic benefit realized and the representative utilization of the reports by the counties is much less than 70%. A more representative portion of the benefit from and use by District Court Judges of PSI is 30% - we therefore propose that the rate paid by counties to cover the costs of producing the report reflect that and be changed from 70% to 30%. Counties in Nevada are struggling to balance budgets and this additional cost is financially burdensome as well as inequitable.

To remedy this problem NACO proposes that NRS 176.161 be changed to read:

[EXPLANATION – Matter in ***bolded italics*** is new; matter between brackets ~~[omitted material]~~ is material to be omitted]

NRS 176.161 Portion of certain presentence or general investigations and reports to be paid by county in which indictment found or information filed.

* Required fields.

#17

1. ***Thirty percent*** ~~[Seventy percent]~~ of the expense of any presentence or general investigation and report made by the Division pursuant to NRS 176.135 or 176.151, other than the expense of a psychosexual evaluation conducted pursuant to NRS 176.139, must be paid by the county in which the indictment was found or the information filed.

2. Each county shall pay to the Division all expenses required pursuant to subsection 1 according to a schedule established by the Division, which must require payment on at least a quarterly basis.

(Added to NRS by 2011, 2473)

2. Any additional information that may be helpful in drafting the bill (e.g., any relevant legislative measures, cases or federal or state laws – may be attached as separate document):

The current biennium cost allocation (for cost to produce PSIs) is $7,087,549 to counties (70%) and $3,037,549 to the State (30%) – which does not accurately reflect the relative benefit that each receives from the reports.

According to the Nevada Department of Public Safety Parole and Probation website presentence investigation reports are made up of the following information and help the State in the following ways (Accessed 8/26/14 - http://npp.dps.nv.gov/Programs/Court_Services/):

> *COURT SERVICES*
>
> *The Court Services units of the Nevada Department of Public Safety, Division of Parole and Probation (Division) conduct detailed investigations of persons convicted of felony or gross misdemeanor offenses and make sentencing recommendations to the District Court Judges through a legal document called a Presentence Investigation Report. (NAC 213.580; 213.590; 213.600 and NRS 176A.100(3); 213.10988)*
>
> *The reports detail crimes that vary from the most serious offenses that include murder, sex offenses, crimes against children, to the less serious offenses that include theft and substance abuse.*
>
> *In order to more effectively utilize sworn officers for peace officer functions, civilian staff called Division Specialists (Court Services Specialists) conducts the Presentence Investigations and prepare the reports. These Specialists are part investigator, part Para-legal, and part report writer. Each Specialist attempts to personally interview each offender and conduct a thorough investigation, which includes interviewing victims to determine the impact the crime had on them physically, emotionally and financially. Contacting the victim of a crime is taken*

* Required fields.

very seriously by the Division: our mission includes doing everything possible to make the victim whole.

NRS 176.145 mandates that the report of any Presentence Investigation contain the following information to help the District Court in imposing a sentence:

- *Any prior criminal record of the defendant;*
- *Information concerning the characteristics of the defendant, his financial condition, the circumstances of the offense;*
- *Information concerning the effect that the offense had upon the victim, including physical of psychological harm and financial loss;*
- *Information concerning the defendant's child support obligation, if applicable, and if he is in arrears in payment;*
- *Any evaluation outlined in NRS 176.145; and is applicable a psychosexual evaluation;*
- *A recommendation of a minimum and maximum term of imprisonment, or other term of imprisonment authorized by statute;*
- *A recommendation, if the Division deems appropriate, for a regimental discipline program; and*
- *Any information required by the court or any information the Division believes would be helpful to the court in imposing a sentence, in granting probation, or in correctional treatment.*

The Presentence Investigation Report is more than a powerful tool for judges at sentencing. It serves many important and useful purposes:

- *It is used by the Division officer when the offender is released to either probation or parole*
- *It is used by the Nevada Department of Corrections for inmate classification and designation*
- *It is used by the Parole Commission in evaluating the granting of parole for inmates*
- *It is used to locate fugitive or absconders, and in the investigation of a new crime*
- *It is used by correctional treatment agencies in the rehabilitation of offenders*
- *It is used by other states if the offender is approved for transfer under the Adult Interstate Compact agreement*

* Required fields.

The Specialists play a vital role in the criminal justice system. They are expected to be objective and thorough in their investigation and report. The Presentence Investigation Report will be a document that will affect an individual's life for years to come and in many cases their entire life.

* Required fields.

3. NRS Title(s), Chapter(s) and Section(s) affected and/or Nevada Constitutional provisions affected:

NRS 176.161

4. Effective Date:

- ☐ Default (October 1, 2015)
- X July 1, 2015
- ☐ January 1, 2016
- ☐ Upon Passage and Approval
- ☐ Other

*** 5. Person(s) to be consulted if more information is needed:**

Name: Jeff Fontaine

Phone Number(s): (775) 883-7863

E-mail Address: jfontaine@nvnaco.org

6. Description of any known cost to the State or a local government that would result from carrying out the changes in the bill if enacted:

Percentage of the expense charged to the State for the production of any presentence or general investigation and report will increase from 30% of the total cost to 70% of the total cost. In the current biennium the cost is approximately $10 million, so the State's share of that cost would increase from approximately $3 million to $7 million, an increase of approximately $5 million.

7. If this bill draft request is required to be approved in a public meeting, please list the entity that approved the request and the date on which the request was approved:

REQUIRED PREFILING:

Non-Legislators: A bill draft requested by any entity other than a legislator or a legislative committee is required to be prefiled on or before December 20 preceding the regular legislative session. By statute, a measure that is not prefiled on or before that date is deemed to be withdrawn. There is no authority to waive this requirement.

* Required fields.

Please submit completed Bill Draft Request form by mail to: Brenda Erdoes, Legislative Counsel, Legislative Building, 401 South Carson Street, Carson City, Nevada 89701, by e-mail at erdoes@lcb.state.nv.us or by fax at (775) 684-6761.

Dee,

Last spoke with Don Vetter about this event I am putting together. He suggested we go to Austin instead of Battle Mountain, which I and the Pony Express group agree. Can we coordinate this with you and Sadie on Oct 16th to have the Lander Nevada 150th proclamation in Austin and coordinate County Commissioners to participate in the event. I will have the Battle Born newspaper reporter with me. See the tentative schedule below. Since Austin is closer to Eureka than Battle Mountain, we may consider moving up the times to 1:30 in Lander rather than 2:00pm. Let me know your thoughts. The event as been posted on the Nevada 150th website. Photo opportunities with the Pony Express rider and commissioners will be available to local families that want a piece of history per the birthday event. As well, who is our go-to person at Lander for GBRDA coordination? Is Don Vetter your contact we should continue to use or do you know if LEDA has designated someone from their board? Thanks....

COUNTY COMMISSION

James,

I talked with the Lt. Governor's Office yesterday afternoon about this ride to Carson City. The Lt. Governor's Office

gave me the following range of dates that would most likely work for their schedule and Governor Sandoval's schedule. October 8 to October 10. The week of October 13-17. The Week of October 20-24.

Could you please get with your volunteers and determine three possible dates within those range of dates for the ride and delivering the proclamations to the State Capitol? From there I can work with the Governor and Lt. Governor's Offices to confirm a date and obtain the necessary approvals for using the Capitol Grounds for the event.

Thank You,

Scott H. Carey

Wendy,

Thanks for your support. The most celebrated day is Oct 31st but we should do something before to not interfere with that days busy schedule and Halloween family night.

Here's the tentative plan. Each set of County Commissioners will hand over their individual adopted Proclamations at the steps of each courthouse per White Pine, Eureka, and Lander consecutively.

Tentative schedule:

8am White Pine County Courthouse steps with a photo shoot afterwards for members of the local newspaper reporter and community members that want a picture with the pony express rider, horse, and Commissioners documenting the event.

8:30 – 10:00am Load horse, travel to Eureka, NV. Then ride horse into town two – three blocks.

10:15am Eureka County Courthouse steps with a photo shoot afterwards for members of the local newspaper reporter and community members that want a picture with the pony express rider, horse, and Commissioners documenting the event.

10:30 – 1:45pm Load horse, travel to Battle Mountain, NV. Take a lunch break, then ride horse into town two – three blocks.

2:00pm Lander County Courthouse steps with a photo shoot afterwards for members of the local newspaper reporter and community members that want a picture with the pony express rider, horse, and Commissioners documenting the event.

2:30pm - 6:45pm Load horse, travel to Carson City, NV. Send the night, then ride horse into town two – three blocks first thing in the morning.

???am – Delivery all three proclamations to Capital front steps and hand deliver to Senator Goicoichea (if available), then hand off to Governor or Lt. Governor.

This schedule is tentative based on your experience and time required to make the trip with rider, horse and trailer.

Scott,

What day that week and time for the hand off will work best for the Governor and/or Lt. Governor?

Arthur, Ron, or Wendy;

White Pine County is trying to put together an event that will help celebrate the Sesquicentennial holiday with the rest of the State. An event could take place anytime in September or October, 2014. It would be neat to have the Pony Express Riders hand deliver a Proclamation from White Pine, Eureka, and Lander County to the Carson City Governor's Office. Is this a possibility or a long short this late in the game?

To: "Carrigan, Ashley (Heller)" <Ashley_Carrigan@heller.senate.gov>

Dear Elected Officials, Community Leaders & Friends:

I hope this email finds you well! Please be advised that our office has hired Donna Bath, part-time, to represent Senator Heller throughout the eastern part of the state as our Nevada Rural Representative. Donna's portfolio will largely consist of natural resources, and she will work with both Jeremy Harrell in our D.C. office and Sam Crampton in our Reno office. Donna will be working with the following counties:

- Elko
- White Pine
- Eureka
- Humboldt
- Lander
- Lincoln
- Parts of Nye

Sam will continue handling Washoe, Storey, Carson, Douglas, Lyon, Churchill, Mineral, Esmeralda, and Pershing. Our Las Vegas office will continue to cover Clark.

Many of you know Donna very well as she has more than 25 years of experience in governmental and community public relations, relationship development and management. She served as White Pine County's Clerk/Clerk to the Board of Commissioners and Register of Voters from 1992-2008. She also worked as a consultant to LS Power/Great

Basin Transmission and to the Robinson Nevada Mine. I have known Donna personally and worked with her since returning to Nevada in 2009. She has always been a tremendous help due to her extensive knowledge on a variety of Nevada issues. She has worked with local, state, and federal elected officials for over two decades and we look forward to having her on board. As always, please feel free to give any of us a call should you have any questions.

Thank you!

RE: Work Plan for Additional Environmental Site Assessment Activities
Broadway Colt Service Center, 660 West Front Street, Battle Mountain, Nevada
Facility ID #5-000283

Dear Mr. Borden:

The Nevada Division of Environmental Protection (NDEP) has received and evaluated your *Work Plan for Additional Environmental Site Assessment Activities*, (Work Plan). The Work Plan is summarized as follows:

1. The installation of fourteen groundwater monitoring wells is proposed. The wells will be located to further define the contaminant plume as identified in previous investigations.

2. Soil samples will be obtained from 10 of the 14 borings at five foot intervals during boring advancement. The soil samples are proposed to be analyzed for total petroleum hydrocarbons – purgeable.

3. Groundwater monitoring wells MW-1 through MW-10 will be constructed using 2-inch diameter schedule-40 PVC pipe, and the wells installed within the free-phase product portion of the plume (MW-11 through MW-14) will be constructed using 6-inch diameter PVC pipe. The wells will be installed to a depth of approximately 10 feet below the aquifer surface, anticipated to be about 10 to 12 feet below site grade, with a 15 foot screened interval.

4. The groundwater monitoring wells will be developed, surveyed and sampled. Groundwater samples will be tested for benzene, toluene, ethyl-benzene, xylenes, and MTBE.

5. If it appears the extent of contamination has been adequately defined, a report of findings will be provided. If the extent of contamination has not been adequately defined, a work plan for additional site investigation will be submitted.

NDEP has the following comments.

1. Soil samples should be tested for the full range of total petroleum hydrocarbons (not just purgeable). Further, the soil sample with the highest TPH concentration from boring MW-13 (if over 100 mg/kg) should be tested for volatile organic compounds (EPA method SW8260) and polyaromatic hydrocarbons Select Ion Mode (EPA method 8270). Please ensure that the detection limits for your laboratory testing are low enough to be used for comparison with the EPA constituent screening levels.

2. Providing comment #1 is addressed, NDEP concurs with the proposed investigation. Provide a report of findings or a work plan for additional investigation by **October 31, 2014.**

3. Title 40, §280.67 of the Code of Federal Regulations requires that notice be provided to those members of the public directly affected by a release. Therefore, surrounding property owners that may be affected by the contaminant plume will be included in NDEP correspondence. Please provide by **October 31, 2014**, a list of surrounding property owners with their respective site names, site addresses, mailing addresses, and telephone numbers. Also, provide a map that identifies the offsite addresses.

4. Please provide to this office a Sensitive Receptor Survey by **November 14, 2014**. The Survey should include a list, and all pertinent details, of all sensitive receptors within 1,000 feet of the contaminant plume and site boundaries. A map depicting the approximate locations of the sensitive receptors and site property limits should also be included.

If you have any questions, please contact me at 775-687-9386 or sfischen@ndep.nv.gov.

Sincerely,

Steve Fischenich

RE: Work Plan for Additional Environmental Site Assessment Activities
Broadway Colt Service Center, 660 West Front Street, Battle Mountain, Nevada
Facility ID #5-000283

Dear Mr. Borden:

The Nevada Division of Environmental Protection (NDEP) has received and evaluated your *Work Plan for Additional Environmental Site Assessment Activities*, (Work Plan). The Work Plan is summarized as follows:

1. The installation of fourteen groundwater monitoring wells is proposed. The wells will be located to further define the contaminant plume as identified in previous investigations.

2. Soil samples will be obtained from 10 of the 14 borings at five foot intervals during boring advancement. The soil samples are proposed to be analyzed for total petroleum hydrocarbons – purgeable.

3. Groundwater monitoring wells MW-1 through MW-10 will be constructed using 2-inch diameter schedule-40 PVC pipe, and the wells installed within the free-phase product portion of the plume (MW-11 through MW-14) will be constructed using 6-inch diameter PVC pipe. The wells will be installed to a depth of approximately 10 feet below the aquifer surface, anticipated to be about 10 to 12 feet below site grade, with a 15 foot screened interval.

4. The groundwater monitoring wells will be developed, surveyed and sampled. Groundwater samples will be tested for benzene, toluene, ethyl-benzene, xylenes, and MTBE.

5. If it appears the extent of contamination has been adequately defined, a report of findings will be provided. If the extent of contamination has not been adequately defined, a work plan for additional site investigation will be submitted.

NDEP has the following comments.

1. Soil samples should be tested for the full range of total petroleum hydrocarbons (not just purgeable). Further, the soil sample with the highest TPH concentration from boring MW-13 (if over 100 mg/kg) should be tested for volatile organic compounds (EPA method SW8260) and polyaromatic hydrocarbons Select Ion Mode (EPA method 8270). Please ensure that the detection limits for your laboratory testing are low enough to be used for comparison with the EPA constituent screening levels.

2. Providing comment #1 is addressed, NDEP concurs with the proposed investigation. Provide a report of findings or a work plan for additional investigation by **October 31, 2014.**

3. Title 40, §280.67 of the Code of Federal Regulations requires that notice be provided to those members of the public directly affected by a release. Therefore, surrounding property owners that may be affected by the contaminant plume will be included in NDEP correspondence. Please provide by **October 31, 2014**, a list of surrounding property owners with their respective site names, site addresses, mailing addresses, and telephone numbers. Also, provide a map that identifies the offsite addresses.

4. Please provide to this office a Sensitive Receptor Survey by **November 14, 2014**. The Survey should include a list, and all pertinent details, of all sensitive receptors within 1,000 feet of the contaminant plume and site boundaries. A map depicting the approximate locations of the sensitive receptors and site property limits should also be included.

If you have any questions, please contact me at 775-687-9386 or sfischen@ndep.nv.gov.

RE: Work Plan for Additional Environmental Site Assessment Activities
Broadway Colt Service Center, 660 West Front Street, Battle Mountain, Nevada
Facility ID #5-000283

Dear Mr. Borden:

The Nevada Division of Environmental Protection (NDEP) has received and evaluated your *Work Plan for Additional Environmental Site Assessment Activities*, (Work Plan). The Work Plan is summarized as follows:

1. The installation of fourteen groundwater monitoring wells is proposed. The wells will be located to further define the contaminant plume as identified in previous investigations.

2. Soil samples will be obtained from 10 of the 14 borings at five foot intervals during boring advancement. The soil samples are proposed to be analyzed for total petroleum hydrocarbons – purgeable.

3. Groundwater monitoring wells MW-1 through MW-10 will be constructed using 2-inch diameter schedule-40 PVC pipe, and the wells installed within the free-phase product portion of the plume (MW-11 through MW-14) will be constructed using 6-inch diameter PVC pipe. The wells will be installed to a depth of approximately 10 feet below the aquifer surface, anticipated to be about 10 to 12 feet below site grade, with a 15 foot screened interval.

4. The groundwater monitoring wells will be developed, surveyed and sampled. Groundwater samples will be tested for benzene, toluene, ethyl-benzene, xylenes, and MTBE.

5. If it appears the extent of contamination has been adequately defined, a report of findings will be provided. If the extent of contamination has not been adequately defined, a work plan for additional site investigation will be submitted.

NDEP has the following comments.

1. Soil samples should be tested for the full range of total petroleum hydrocarbons (not just purgeable). Further, the soil sample with the highest TPH concentration from boring MW-13 (if over 100 mg/kg) should be tested for volatile organic compounds (EPA method SW8260) and polyaromatic hydrocarbons Select Ion Mode (EPA method 8270). Please ensure that the detection limits for your laboratory testing are low enough to be used for comparison with the EPA constituent screening levels.

2. Providing comment #1 is addressed, NDEP concurs with the proposed investigation. Provide a report of findings or a work plan for additional investigation by **October 31, 2014.**

3. Title 40, §280.67 of the Code of Federal Regulations requires that notice be provided to those members of the public directly affected by a release. Therefore, surrounding property owners that may be affected by the contaminant plume will be included in NDEP correspondence. Please provide by **October 31, 2014**, a list of surrounding property owners with their respective site names, site addresses, mailing addresses, and telephone numbers. Also, provide a map that identifies the offsite addresses.

4. Please provide to this office a Sensitive Receptor Survey by **November 14, 2014.** The Survey should include a list, and all pertinent details, of all sensitive receptors within 1,000 feet of the contaminant plume and site boundaries. A map depicting the approximate locations of the sensitive receptors and site property limits should also be included.

If you have any questions, please contact me at 775-687-9386 or sfischen@ndep.nv.gov.

PUBLIC CONSULTATION
ROBERTS MOUNTAIN ALLOTMENT
PROPOSED DROUGHT RESPONSE ACTIONS
MOUNT LEWIS FIELD OFFICE

Dear Interested Public:

According to the U.S. Drought Monitor (droughtmonitor.unl.edu) as of September 9, 2014, all the state of Nevada is experiencing moderate or higher drought with the Roberts Mountain Allotment identified in the severe category. The U.S Seasonal Drought Outlook for the period of August 21 through November 30, 2014 indicates that the drought will persist or intensify. Due to continued drought conditions within the Roberts Mountain Allotment, the Mount Lewis Field Office (MLFO) is proposing to implement drought management actions analyzed in the Battle Mountain Drought Management Environmental Assessment (EA #DOI-BLM-NV-B0000-2012-0005-EA).

The Roberts Mountain Allotment is located approximately eighteen miles northwest of Eureka, Nevada and is characterized by steep mountains, sagebrush/grass foothills and loamy valley bottoms. The allotment is approximately 166,311 acres in size and encompasses portions of Kobeh, Diamond and Pine Valleys. Elevations range from 5,800 feet in the valley to 10,133 feet in the mountains. The major vegetation type in the lower elevation is sagebrush/bunchgrass, the mid elevation is a mixture of sagebrush/bunchgrass and pinyon/juniper, and the higher elevation is primarily pinyon/juniper. Cattle are permitted to graze the allotment from March 1 through February 28 for a total of 9,624 Animal Unit Months (AUMs). The grazing system for the allotment includes a four pasture, rest rotation for the pastures on the mountain (see Roberts Mountain Allotment Map).

The majority of riparian resources occur within the Tagging, Poison, Henderson and Vinini Pastures, which are the four pastures identified in the rest rotation. There are a few other riparian areas within the Garden Valley (commonly referred to as Frazier), McCloud, and Rutabaga Pastures. There is a portion of Roberts Creek in the northern portion of the Rutabaga Pasture and a portion of Henderson Creek along the eastern boundary of the Henderson and Frazier Pastures. The southern 1/3 of the allotment is within the Roberts Mountain Herd Management Area (HMA) and the Whistler Mountain HMA borders the allotment to the southeast. Approximately 60 percent of the Tagging Pasture is within the Roberts Mountain Wilderness Study Area and includes Lahontan cutthroat trout, US Fish and Wildlife threatened species, within Pete Hanson

Creek. Additionally the allotment is located within Greater sage grouse preliminary priority (PPH) and preliminary general habitat (PGH). (See Roberts Mountain Resources Map).

During the past few years, the MLFO has been working with Diamond Cattle Company to address concerns with wild horse overpopulation (including wild horses outside the HMA), forage and water availability, wildfire and drought. In 2012, the Frazier Fire burned approximately 12,030 acres within the Roberts Mountain and JD Allotments. The fire resulted in closing the Vinini and Frazier Pastures to livestock grazing and temporarily suspended 860 AUMs within those pastures.

Diamond Cattle Company has voluntarily reduced their herd of cattle by over half and has modified their grazing rotation system within the terms and conditions of their permit. However, in order to address the concerns with wild horses, available forage and water, wildfire and drought, temporary changes to the grazing permit terms and conditions are needed. The MLFO proposes to modify the season of use within the Tagging Pasture from May 25 through September 5 to October 1 through December 15 and the Poison Pasture from July 1 through October 3 to October 1 through December 15.

The grazing application submitted by Diamond Cattle Company would implement voluntary drought response actions which would allow for resource protection and recovery and are in conformance with BLM drought policy (BLM Handbook H-1730-1, IM 2013-094). Due to the grazing application being outside the terms and conditions of the grazing permit, a Decision is required. The Decision would be issued Full Force and Effect, Effective on Issuance in accordance with 43 CFR §4110.3-3(b) to protect public land resources during drought for the 2014 grazing year.

Proposed Drought Response Actions

1. Approve the 2014 Grazing Application submitted by Diamond Cattle Company:

Pasture	Livestock Number	Livestock Kind	Season of Use		AUMs
			Begin	End	
Tagging	225	Cattle	10/1	12/15	562
Poison	142	Cattle	10/1	12/15	355

   a. Place 6,787 AUMs into voluntary nonuse for the 2014 grazing season.

2. Implement the following within season triggers for the Roberts Mountain Allotment and require that livestock be removed within 7 days from areas achieving the triggers:

   - Salt Desert Shrub - 25% utilization of key species
   - Sagebrush Grassland - 30% utilization of key species
   - Pinyon-Juniper Woodland - 30% utilization of key species
   - Mountain Shrub - 30% utilization of key species
   - Riparian Zones – Four inch stubble height of key riparian species

Rationale

Since the preference for the Roberts Mountain Allotment was transferred, the BLM and Diamond Cattle Company have been working on a grazing system which would allow two herds of cattle to graze within the allotment. Diamond Cattle Company has divided the allotment into two different rotations, one on the east side of the allotment (Roberts Ranch, Roberts Seeding, Nichols, Rutabaga and Tagging Pastures) and the other on the west side (Poison, Henderson, Henderson Field, Vinini, Frazier, McCloud, Chimney and Alpha Pastures).

Drought became a point of focus in 2012 with the start of the worst drought since the 1950's. Localized drought impacts were observed; however in 2013, impacts were visible on a larger scale and included the Roberts Mountain Allotment. Forage and water for livestock, wild horses and wildlife was limited and required Diamond Cattle Company to voluntarily reduce the number of cattle on the range.

Proper use of range forage allows plants to survive dry periods, recover quickly, and provide cover to protect soil and promote water infiltration (Hanselka and White 1986). The degree to which drought impairs the range depends on the intensity, frequency and timing of grazing (Howery 1999). To survive, perennial plants must accumulate both above ground (shoot growth) and below ground (root growth) biomass through the process of photosynthesis, transpiration, and respiration (Howery 1999). Excessive removal of above ground biomass during the growing season (such as through overgrazing) reduces root growth. A healthy root system is paramount in the growth of any range plant, especially during dry years when competition for nutrients is most severe (Bedell and Ganskopp 1980).

Monitoring information collected within the Roberts Mountain Allotment indicates that the Nichols and Roberts Ranch Pastures are experiencing drought and did not produce an abundance of forage. The lack of forage within these pastures raises concern because these pastures are also important habitat for wild horses. Observations of riparian areas within the allotment indicate that water flow has been reduced in most systems. Reduced water availability increases the use of areas where water remains. Additionally, during the hot season, livestock are more inclined to congregate around water sources due to cooler temperatures and available forage.

The MLFO is proposing to issue a Full Force and Effect Decision approving the 2014 grazing application submitted by Diamond Cattle Company which will defer grazing within the Tagging and Poison Pastures that include substantial riparian resources and LCT habitat. Deferring grazing until after the hot season will allow livestock to graze when temperatures are cooler increasing distribution and preventing resource damage during drought.

A Documentation of NEPA Adequacy (DNA) to the Battle Mountain District Drought Management Environmental Assessment would be completed prior to the issuance of a decision for implementation.

This proposal is in accordance with 43 CFR §4110.3-3(b) which requires the authorized officer to close allotments or portions of allotments to grazing by any kind of livestock or modify

authorized grazing use when it has been determined that soil, vegetation, or other resources on the public lands require immediate protection because of conditions such as drought.

This letter serves as the opportunity for the interested public, partners, and state, local, and tribal governments to provide comments on the proposed drought response actions that will be implemented within the Roberts Mountain Allotment. Please submit any comments in writing to *the above address within (7) days of the date posted on this letter. If you have any questions,* please contact Jason Spence, Rangeland Management Specialist at (775) 635-4188.

Sincerely,

Christopher J. Cook

SEP 25 2014

Dear Interested Public:

On December 28, 2012, the Wildfire Management and Livestock Closure Decision for the Frazier Fire was issued closing portions of the JD and Roberts Mountain Allotments. Objectives identified for reopening the burned area to livestock grazing are as follows:

1) Achieve a minimum of four seeded plants per square meter along the 50 meter transect at established monitoring locations(s) within the treatment area – Not Met

2) Achieve a minimum of 30 percent cover by perennial species by the end of two growing seasons – Partially Met

3) Total dry weight production of perennial herbaceous species in burned areas must equal or exceed the herbaceous production on nearby unburned areas in the same or similar ecological site - Met

The Decision states that at the end of the second growing season of the grazing closure, if the establishment criteria have not been met, the burned areas will be evaluated for the potential to meet the criteria. Although the density objective was not met for seeded species, density of all perennial plants in three of the four key areas exceeded the objective. Additionally, the key area that fell short was close to the objective with three perennial plants per square meter. The amount of perennial plants present should allow for further expansion and out complete annual species. (Refer to attached pictures).

Two of the four key areas met the perennial species cover objective of 30 percent or greater. However, each key area had over 30 percent total cover (perennial and annual species) and ranged from 54 to 74 percent. Throughout the burned area, there are large patches of cheatgrass and/or other annual plants. Although perennial plants are scattered throughout these patches, it is unreasonable to expect a significant increase in the number of perennial grasses or other desirable species with the current ground cover. Additionally, the amount of cover present is enough to reduce potential wind and water erosion. (Refer to attached pictures).

Though all of the objectives were not fully met, continued closure would not result in a significant vegetative response. Based on monitoring information and professional judgment, I have determined to reopen the Frazier Fire to livestock grazing. All temporary Animal Unit Months suspended as a result of the Frazier Fire will be returned to active status. Post fire

grazing management will consider drought impacts and other prudent resources. The drought triggers, identified in the Battle Mountain District Drought Environmental Assessment will apply to the burned area.

If you have any questions, please contact Jason Spence, Rangeland Management Specialist at (775) 635-4188.

Sincerely,

Christopher J. Cook

Subject: **No Further Action Determination**

Re: **Oil Release from Pad-Mounted Transformer near Antelope Valley Road**

Facility: E-000122

NDEP Spill/Complaint: #140520-01

Dear Mr. Benson:

The Nevada Division of Environmental Protection (NDEP) has reviewed the July 31, 2014 "*Oil Release from Pad-Mounted Transformer near Antelope Valley Road, Facility ID #E-000122, Spill Report #140521-01*[sic]" letter report prepared by Jason Benson, C.E.M. of NV Energy. Note that NDEP inadvertently referenced this release to NDEP spill report no. 140521-01 in the June 3, 2014 Request for Information to a Spill or Release letter. This release was reported to NDEP under spill report no. 140520-01 and NV Energy references to the wrong spill number provided them by NDEP have been corrected in this document. This letter provides a no further action determination for the release of mineral oil from a pad-mounted transformer due to corrosion of the transformer's carcass as the above-referenced facility and applies to other places contaminants related to this release have come to be located (Nevada Administrative Code (NAC) 445A.3452).

The July 31, 2014 "*Oil Release from Pad-Mounted Transformer near Antelope Valley Road, Facility ID #E-000122, Spill Report #140521-01*[sic]" letter report contains a request for a no further action determination from the NDEP.

The NDEP has reviewed information contained in the NDEP Bureau of Corrective Actions Spill/Complaint # 140520-01 file that has been provided by NV Energy and Jason Benson, C.E.M. Based on this review, all contaminants in the soil have been demonstrated to be below action levels or remediation standards; therefore, the NDEP has determined that no further assessment or remediation is required to be protective of human health and the environment in accordance with NAC 445A.227(1).

NDEP may re-evaluate this decision if conditions at the site change or if new or previously unidentified information becomes available that: 1) alters the results of the site evaluation; and 2) demonstrates a potential detrimental impact on human health or the environment.

If you have any questions or concerns regarding this letter, please contact the undersigned at (775) 687-9385 or dfriedman@ndep.nv.gov.
